COMPS

Appfigures

<http://docs.appfigures.com/>

Full width header, pleasant color scheme, nice use of negative space

'Be A Part Of' Ecommerce Web Developers

<http://www.beapartof.com/>

Fixed full span header, full span layout, splashy yet not too busy, carousel.

Shopify

<https://docs.shopify.com/>

Fixed full span header, full span layout, 2 column, good use of real estate.

Citrix

<http://www.citrix.com/>

Full span layout, lots of images, simple text.

Salesforce Developers

<https://developer.salesforce.com/>

Full span layout, lots of icons, buttons and text, not long scrolling like many others with similar esthetic, but definitely more packed with content.

API JQuery

<https://api.jquery.com/>

Full span layout, but non header content boxed in with margins. Eye catching color scheme, utilitarian delivery of content.

Instagram Developer page

<https://instagram.com/developer/>

Full span header, fixed left nav, scrolling right column content, branded color scheme.

GitHub Developer

<https://developer.github.com/>

One of my fav color schemes, not typical blue, nice graphics, full span layout, not too long of a scroll.

Programmable Web

<http://www.programmableweb.com/>

Heavy with content, lots of scrolling, but layout keeps the attention, nice hover effects on social and menus buttons. Cute favicon.
